6039 I

General and Revenue Secretariat. Ind File No. 341 of 1934 [App. F. III-2

1 Letter No. G. 249/36-35 dated 18-6-35 from the Director Ind forwarding proposals for the redistribution of duties amongst the Superintendents of Industries and requesting orders of Govt for the appointment of Mr Aswathan anagamalas Asst Boiler Inspector as Boiler Inspector and Mr. H. R Bhanavasekharaiah Senior Mechanic as Boilers Inspector on an allowance of Rs 25/- pm in order to enable the Superintendents to devote more attention to the development of rural & cottage industries.

The two files leading to the Govt orders refd to in the P.W.D are placed below with refes flagged and marked on the P.W.D.

Ind 216-26 (Pt) Ind 119-34-1

While defining the duties of the Superintendents of Industries, in G.O. No. dated 24/9/29 one of the main intentions of Govt was the encouragement to be given for the development of rural and cottage industries. (Clause 11 in the G.O) Kind reference is invited to the letter dated 18/2/29 from the Director Ind. ~~stating~~ ~~that~~ pleading for the maintenance of the Asstts at Dt. Hd quarters and also to Para 11-19 of the Dem Secy on the question, wherein it has been stated that the rural & cottage industries could be developed with the help of Dt. Boards and the Village Panchayats. The duty of the development of the rural and cottage industries was purposely included in the proposed G.O. (vide Paras 41 & 42 of the note)

Flag V

NOTE—Contn. Sheet.

✓ 6239

Ire File No. 341 of 193 4 | General and Revenue Secretariat

which it was not proposed by the Dir Ins.

In their order dated 26/11/34 the Inspts of Industries attached to the respective divisions were withdrawn and concentrated at Bangalore, as a measure of economy in expenditure.

Within six months of the effect of the G.O dated 26/11/34 the Director has reported that adequate attention to one of the most important functions viz the development of the rural and cottage industries, is not being paid by the Inspts of Industries. As a result of discussion of the question with the Industrial Engineer he proposes the appointment of Mr. Narayana Rao, as Boiler Inspector and Mr. H.A. Chandrasekhariah as Factory Inspector with jurisdiction over the Dts of Bellary Cuddapah & Kolar with an allowance of Rs 25/- p.m.

In the file leading to the G.O dated 24/9/29 the Director Ire considered the withdrawal of the Inspts and their concentration at Hd quarters as a retrograde step and the Dev Secy agreed that Concentration at Hd quarters would involve a total expenditure on T.A while loss of touch with the public in the Dts would limit their usefulness in such work as the Inspts might be called out to do." In Para 17 of

Flag M

Flag V

Para 2 of the Note

it was stated that the Supdt might help the Dt. Boards and the V.Ps for improving cottage industries and thus fulfilling their statutory duties of these bodies, in regard to the economic development. These suggestions were agreed to by the 2nd Member & the Dewan (vide Paras 20-21) and further action was taken accordingly.

The present proposal of the Director does not contain any information as to how the Supdts will be able to devote more attention to the development of rural and cottage industries. Even the note of the Industrial Engineer makes a meagre touch on the question. It is rather doubtful whether, even with the separation of certain duties by the creation of the Boilers and Factory Inspectors, adequate attention will be paid by the Supdts to this important question. The proposal of the Director involves already in an addl cost of Rs 300/- p.m. besides perhaps T.A to those Inspectors.

This however does not reduce the touring work of the Supdts, who have to keep themselves in touch with the local bodies viz the Dt. Bds & the V.Ps. for which they have to undertake an more intensive touring in the Ds for the proper and efficient discharge of the responsibility leading to increased expenditure under T.A. and other incidental charges.

NOTE—Contn. Sheet.

6039

Dte File No. 341 of 193 4

General and Revenue Secretariat

If the proposals of the Director were to be sanctioned without an examination, in detail, of the procedure to be adopted by the Inspectors in this behalf, without additional expenditure to Govt, there is a possibility of proposals cropping up in future, one after another for rendering assistance to the Inspectors for the proper and efficient discharge of their duties, and Govt will be practically forced to give their assent to them merely on the ground that the former proposal was sanctioned. and it is also to be feared that, rendering of assistance gradually involving increased expenditure without proper return, may lead to the revision to the old system of locating the Inspectors outside Bangalore.

Under these circumstances it is for consideration, whether the Dir Ire may not be requested to indicate, after careful examination in detail, the procedure that the Inspectors will adopt for the development of rural and cottage industries without additional expenditure on this account

Submitted for orders

Ire 19/7/35 The proposals of the Dir for the Redistribution of the work of the Inspection of Boilers in the several Districts Opened to make an Amathan arrangement as Boiler Inspectors for the Dists of Bangalore, Tumkur Kolar ~~with the~~ excluding K.G.F & Bangalore city

File Ire 2239/34 D.No. 5225 Submitted 6/8/35 Secy on 18/7/35

has been dealt with separately in another file

6839 (5

General and Revenue Secretariat. Ife File No. 341 of 193 c—5 [App. F. III-2

The present proposal is to effect a similar distribution of work connected with Factory Inspection and to make Mechanic Sri Chandrasekharaiya ~~now working~~ under the Municipal Engineer as Factory Inspector on his own pay @ 125 plus Rs 25 pm as allowance. The proposal involves an extra expre of Rs 300 a year besides T.A to the Mechanic. This is proposed in Consultation of the Dl Secy KP 18/7/35

Sri M.V.R Chandrasekhariya Sr. Mechanic is an addl Facty Inspr. under an allowance of Rs 25/- pm. This may perhaps be sanctioned to give some relief to the Supdt of Industries and to enable them to attend & give more attention to the improvement of rural & cottage industries. The no of factories have increased and the new Regulation is likely to come into force early. All this will mean more work and as the no of Supdt of Industries has also been reduced and they are expected to do quite a lot of work in their Capital Making & allied activities the appointment of an addl Facty Inspr is necessary & the same may be sanctioned. The small extra exp

FROM S. Abdul Wajid, Esq., B.A.,
~~Xxx Xxxxx Xxxxxx Xxxxxxx Xxxxxxx Xxxxxx Xxxxxx X

appointment of Mr. Aswathnarayana Rao, Assistant Boiler Inspector as Boiler Inspector, with jurisdiction over a certain area. For the same reason, Mr. H.R. Chandrasekhariah, Senior Mechanic, on Rs.125/-, may be appointed Factory Inspector with jurisdiction over the Factories in the Districts of Bangalore, Tumkur and Kolar (excepting the big Factories in the Bangalore City and Kolar District as noted below*). For the additional duties and responsibilities involved, he may be granted an allowance of Rs.25/-. This may be met from the saving in the allowance of Rs.30/- that was being paid to the Inspector of Boilers and Superintendents of Industries since abolished as proposed by my predecessor (vide letter No. dated

I request you to kindly obtain early orders of Government on the above proposals.

I have the Honour to be,
Sir,
Your most obedient servant,

Director.

5. The Kaiser-i-Hind Woollen Cotton & Silk Mills, Ltd.

Kolar District:-

6. The Kolar Brick Making Co., Marikuppam.

atk).

NOTE ON THE FUNCTIONS OF THE SUPERINTENDENTS OF INDUSTRIES.

The present functions are as follows:-

1) Inspection of Factories,
2) -do- Boilers,
3) -do- Busses in the four districts of Kolar, Hassan, Kadur and Chitaldroog.
4) Investigations of loan applications,
5) Supervision of erection of machinery,
6) Inspection of articles manufactured for Government Departments through Stores Purchase Committee., etc.

I find from my experience in handling the work done by these officers that a good deal of their time is given to the first three functions, viz., Boilers, Factories and Bus Inspections. As regards original and development work for which they are ostensibly meant, very little of their attention at present is being given to such problems that are connected with the development of industries in the rural and urban areas. I have already taken some action to relieve them of some of this routine work in order that they may be employed to a greater extent for attending to original and investigation work. I have submitted a note about taking away jurisdictions of these officers with reference to boiler inspection in the districts of Tumkur, Bangalore and Kolar and giving them over to the Assistant Boiler Inspector who will work under my guidance and be a boiler Inspector for these areas.

p.t.o.

(4

As regards the factories in these three districts, except the big factories in Bangalore city, I propose that Mr.H.R.Chendrasekhariah,Senior District Mechanic may be placed in charge of that inspection. Big - factories being under the charge of the Superintendent of Industries as hithertofore. From the reference already sent to Government by the Director of Industrie in his letter, it is seen that the Director has already recommended Mr.Chendrasekhariah for this place, except that the jurisdiction proposed by me is different from what he has suggested. As Mr.Chendrasekhariah has already acted a number of times for the Superintendent of Industries and has given satisfaction in the charges he has held, I recommend that he be appointed Factory Inspector for Bangalore, Tumkur and Kolar Districts, except in the case of big factories in Bangalore City that are mentioned below, which will be under the jurisdiction of the Superintendent of Industries.

Bangalore city.

1) The Bangalore Woollen, Cotton & Silk Mills,Ltd.,
2) The Minerva Mills,Ltd.
3) The Mysore Spg & Mfg Co., Ltd.,
4) Government Central Press,
5) The Kaiser-I-Hind Woollen, Cotton & Silk Mills,Ltd.

Kolar District.

6) The Kolar Brick Making Co., Marikuppam.

After sometime, I will give more factories in other jurisdictions adjoining Bangalore, to this office if I find that the work turned out is quite satisfactor

(Next page)

and he has got sufficient time for more work. For this extra work I recommend an allowance of Rs.25/- which has been recommended in the letter referred to above. This could be met out of the savings of allowanc that was being given to the Superintendent of Industries Bangalore Division for Boiler Inspection work.

It will thus be seen that the relief I propose to give to the Superintendents of Industries by taking away a good protion of their work with reference to Boiler and Factory inspections in their jurisdictions and if necessary later on in another district, say Mysore, they will have enough time on hand to attend to the development work that I have already referred to above. I propose to utilise them for the following functions for which they have to give their main attention in future.

1) Investigation in each district of the Industrial possibilities under the following heads:-

a) Cottage Industries,
b) Minor Industries,
c) Major Industries,

For this purpose they should get into intimate touch with the non-officials and men interested in Industries and business and the revenue officers in the districts and submit clear reports on the work done by them under these heads every month to the Industrial Engineer who will, after review, forward them on to the Director of Industries.

Any scheme under any of these heads could be then formulated by me and sent up to the Board of Industries

for consideration by the Director.

2) Statistical review of the Industries in the State

I propose to submit a review of all the industries in the State showing whether general conditions have been favourable for the development of industries or ha have been otherwise.

The collection of these statistics it should be possible to find out why certain industries are not progressing as they should, or if there is any scope for developing further industries already started and above all to go into the cases of industries which have failed.

A review of this nature will be of immense importance to the Department, local bodies, heads of the districts and for the people generally and due publicity should be given for this aspect of our work.

3) Industrial survey of Industries possible in the districts should be conducted in a systematic manner. There has been a proposal of this nature sometime back and due to some reason or other this matter has not taken shape. The Superintendentsof Industries with the District Mechanics, should be able to carry out this in an efficient manner as suggested above if they get into touch with the officials and non-officials in the districts. Suitable publicity can be given by pamphlets to bring this to the notice of the people and industrialists and business men and

and generally the people, as to what industries are possible in each district under the cottage, minor and major type.

I am of opinion that if the Superintendents of Industries, with the staff under them, work and interes themselves in the manner suggested above, a good deal of useful work could be done and programmes of future work in each district could be planned out. This could be taken up systematically. In other words, - systematic planned work for the Superintendents of Industries in a more rational and useful manner could be brought about by making them attend to these new functions.

It will be seen, therefore, that as a first step towards bringing about the results mentioned above, it is necessary, firstly, to appoint the Assistant Boiler Inspector as Boiler Inspector of Tumkur,Kolar and Bangalore Districts and secondly that Mr.H.R. Chendrasekhariah to have additional duties of factory inspection in the above three districts with an - allowance of Rs.25/- as proposed by the previous Director which I also recommend, in consideration of the extra work he will be given.

INDUSTRIAL ENGINEER.
